INFORMATION ABOUT STUDY

Title of Study: Decision-Making and Finger Agility

You are invited to participate in a research study. This study is being conducted by the Department of Social Psychology at Tilburg University. The intention of this study is to research and gain knowledge on how people make decisions. This study involves:

- (i) two rounds of a decision-making scenario (where you could earn bonus payment)
- (ii) a task involving finger agility
- (iii) a questionnaire.

This study will take **approximately 18 minutes** to complete.

Participation, Benefits and Risks

Participation in this research study is completely voluntary. You have the right to withdraw at any time or refuse to participate entirely without providing any explanation. If you desire to withdraw, please simply close your internet browser. There will be no negative consequences if you withdraw or refuse to participate. After participating in this research, you will be given a completion code with which you can collect your monetary reward (**$1.80**) for participating. Depending on the outcomes of the decisions you make, you may earn additional bonus payment. Risks are minimal for involvement in this study.

Requirement

To participate in this study, you need to be at least 18 years old.

Confidentiality

All data obtained from participants will be kept anonymous. There will be no record that links the data collected from you with any personal data from which you could be identified (e.g., your name, address, email, etc.). Once anonymized, these data may be made available to

researchers via accessible data repositories and possibly used for novel purposes. The data will be stored for at least 10 years.

Questions
If you have questions regarding this study, you may contact the researcher How Hwee Ong at h.h.ong@tilburguniversity.edu.

This study has received approval from the Tilburg School of Behavioral Sciences' Ethical Review Board. If you have any remarks or complaints regarding this research, you may also contact the Ethics Review Board of Tilburg School of Social and Behavioral Sciences via erb@tilburguniversity.edu.

☐ I have read the informed consent statements above and I agree to participate in this study.

If you agree to participate in the study, tick the checkbox above and click "->" to begin.

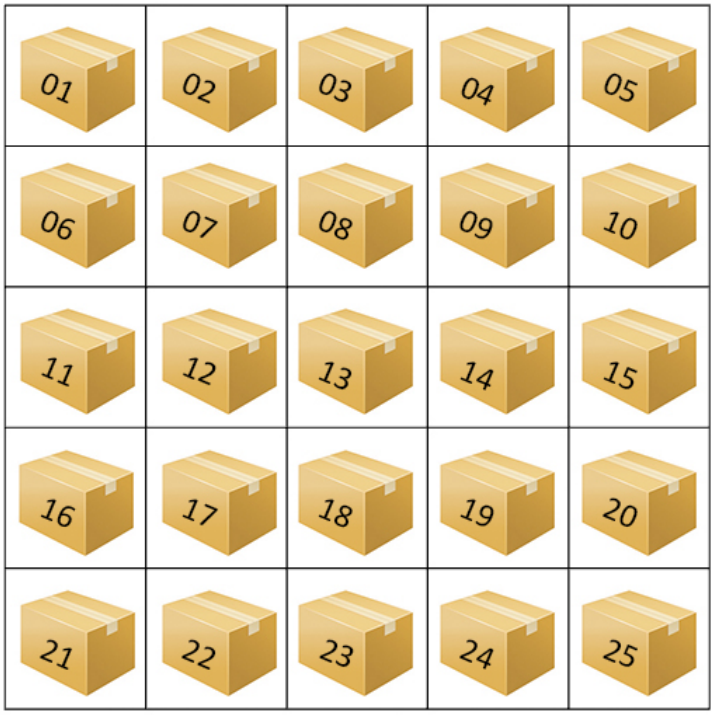

Introduction

The Bonus Task

We will start the study with a decision-making task, which we call the 'bonus task'.

You will make decisions on two separate rounds of this task: once after the explanation and once more at a later part of this study. Below is the explanation for one round of the task.

- For each round, you will see a 25 boxes arranged in a 5 x 5 grid, as shown in the picture below.

- 1 of the 25 boxes contains a "bomb". The location of the bomb is randomly determined such that each of the 25 boxes is equally likely to contain the bomb.
- You can choose to open as many of the boxes as you like (from 0 to 25 boxes).
- If none of the boxes you open contain the bomb, you will earn a bonus payment of $0.03 for each box you choose to open.
- If one of the boxes you open contains the bomb, then you will not receive any bonus payment for the round.
- The total bonus payment you receive in this study would be the sum of the bonus payment from the two rounds.
- You will NOT immediately know whether the boxes you choose to open contain the bomb. You will only be informed about the outcome at a later stage of this study.

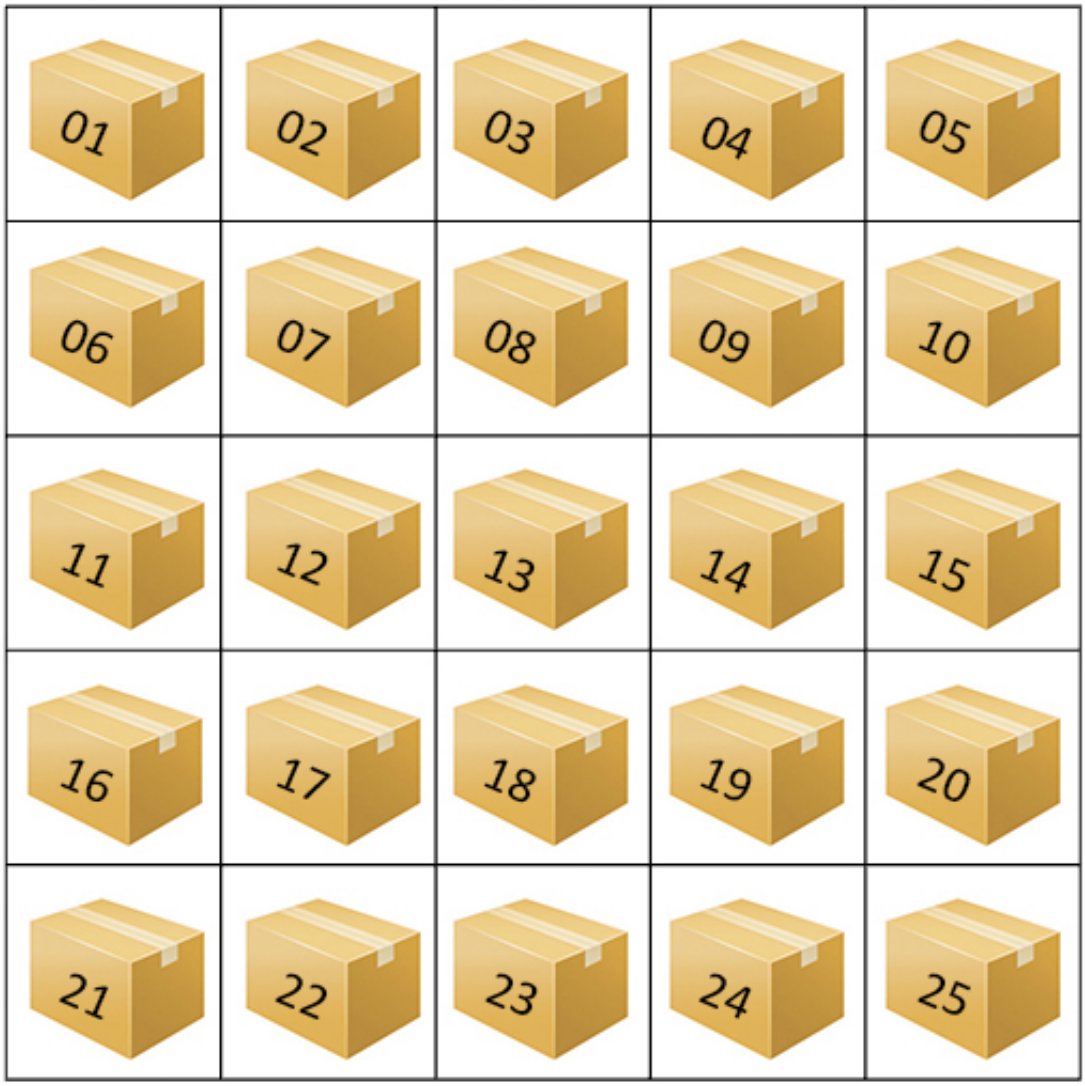

Click "->" to proceed to a practice round.

The Bonus Task

Practice round

Please chose the box(es) you want to open by clicking on it.
The box(es) in green are the ones you choose to open.

Once you have selected all the boxes you want to open, click the "->" button.

The Bonus Task

Practice Round

You have chosen to open the following boxes:

${q://QID18/ChoiceGroup/SelectedChoicesForAnswer/2}

Click "->" to continue.

Understanding Check

Before we start with the first real round of the bonus task, we would like make sure you understand the task by asking you several questions.

If you need to, you can read the instructions again by clicking the following button:

Show/Hide Instructions

---

1) If you open 5 boxes and **none** of the 5 boxes you opened contains the bomb, you will earn a bonus of $0.15 (5 x $0.03) for that round. True or false?

- ○ True
- ○ False

---

2) If you open 5 boxes and one of the boxes contains the bomb, you will earn no bonus payment for that round. True or false?

- ○ True
- ○ False

---

3) You will be immediately notified if you click on a box that contains the bomb.

- ○ True
- ○ False

Click "->" to continue.

The Bonus Task

Round 1 of 2

We will now start with the first round of the bonus task.
The outcome of this round will affect your bonus payment.

Please chose the box(es) you want to open by clicking on it.

Once you have selected all the boxes you want to open, click the "->" button.

The Bonus Task

Round 1 of 2

For Round 1, you have chosen to open the following boxes:
${q://QID2/ChoiceGroup/SelectedChoicesForAnswer/2}

You will be informed about the outcome at a later point in the study.

Click "->" to continue.

Finger Agility Choice

FINGER AGILITY TASK

You will soon be asked to perform a finger agility task that tests your speed and reaction time.

- You can choose between two versions of this task (Version A and Version B).
- Both versions require you to quickly move your mouse cursor and click your mouse repeatedly (or screen taps if you are using a device with touch screen).
- The duration (time taken) of both versions is the same.
- Previous participants have indicated that both versions are equally interesting.
- Some previous participants have indicated that Version B hurt their hand a little. Therefore, we want to provide the disclaimer to you that **Version B could cause a small amount of hand pain**.
- Any hand pain caused by Version B will be harmless as it will quickly dissipate when the task is over, with no long-lasting pain.

Now, please choose which version of the task that you would like to perform?

- ◯ Version A
- ◯ Version B

Click "->" to continue.

Finger Agility No Choice

FINGER AGILITY TASK

You will soon be asked to perform a finger agility task that tests your speed and reaction time.

- The task requires you to quickly move your mouse cursor and click your mouse repeatedly (or screen taps if you are using a device with touch screen).

Click "->" to continue.

BRET2

The Bonus Task
Round 2 of 2

You have chosen the version of the finger agility task without pain.

Before you perform the finger agility task, you will first proceed to the second round of the bonus task. As before, the outcome of this round will affect your bonus payment.

The Bonus Task
Round 2 of 2

You have chosen the version of the finger agility task which may cause a small amount of hand pain.

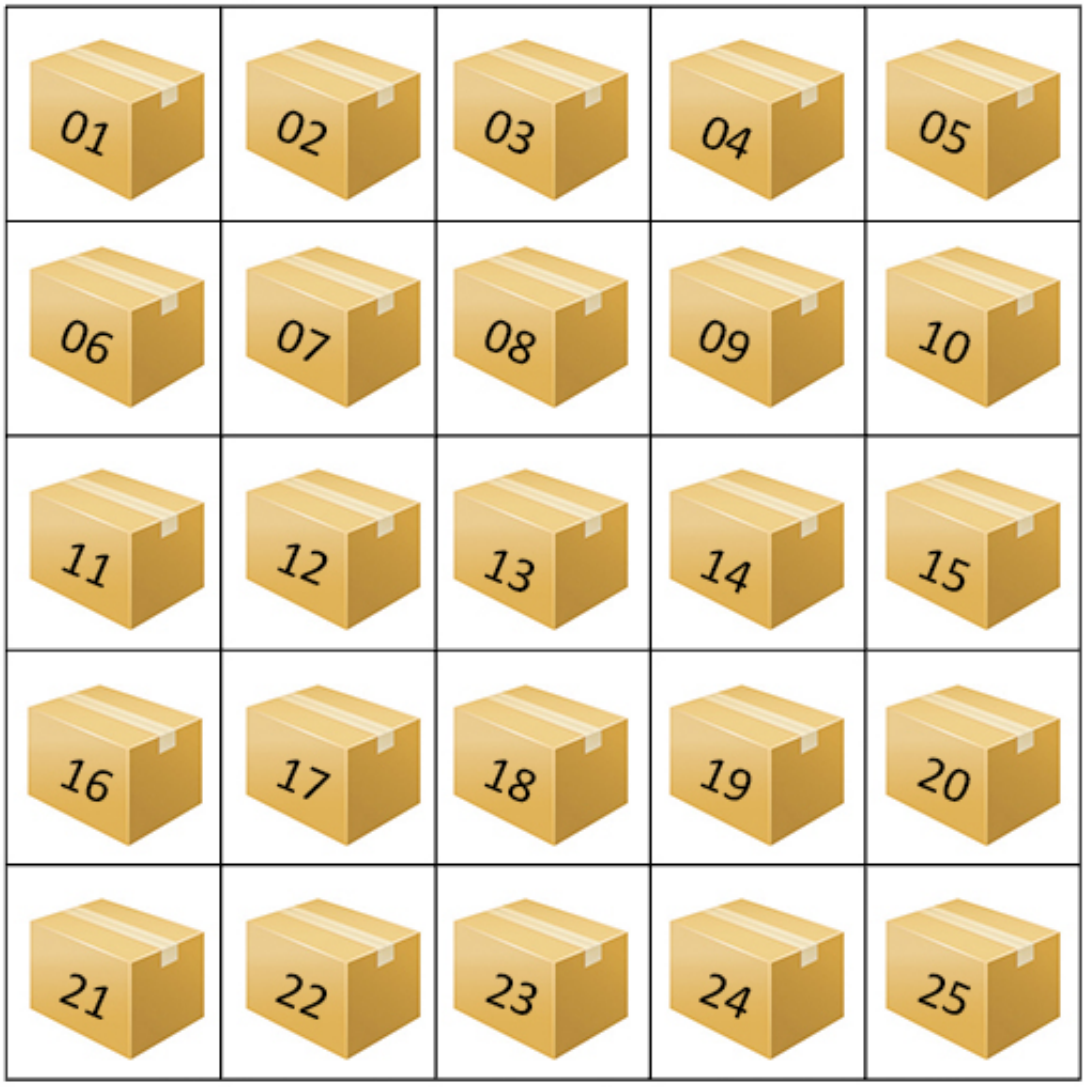

Before you perform the finger agility task, you will first proceed to the second round of the bonus task. As before, the outcome of this round will affect your bonus payment.

The Bonus Task

Round 2 of 2

Before you perform the finger agility task, you will first proceed to the second round of the bonus task. As before, the outcome of this round will affect your bonus payment.

Please chose the box(es) you want to open by clicking on it.

Once you have selected all the boxes you want to open, click the "->" button.

The Bonus Task

Round 2 of 2

For Round 2, you have chosen to open the following boxes:

You will be informed about the outcome at a later point in the study.

Click "->" to continue to the finger agility task.

Finger Agility Actual

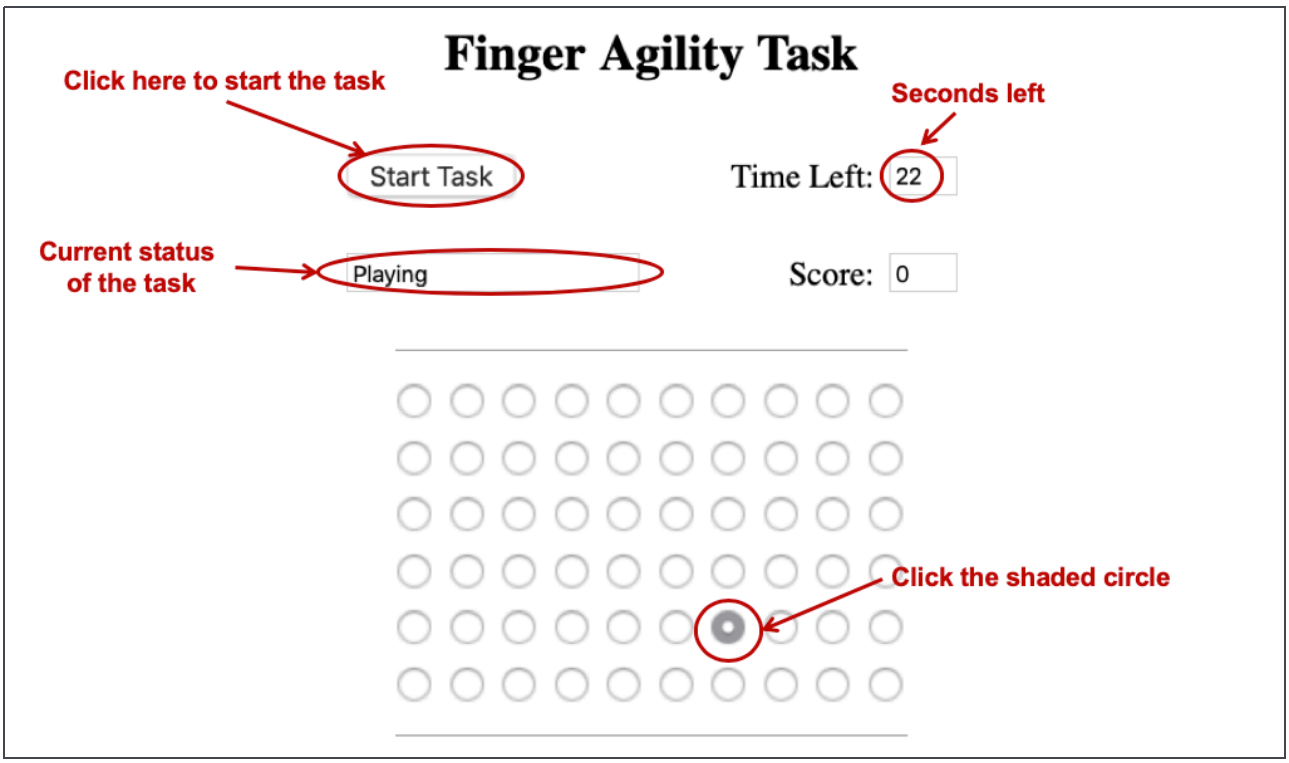

FINGER AGILITY TASK

Instructions

Please read the following instructions for the Finger Agility Task carefully.

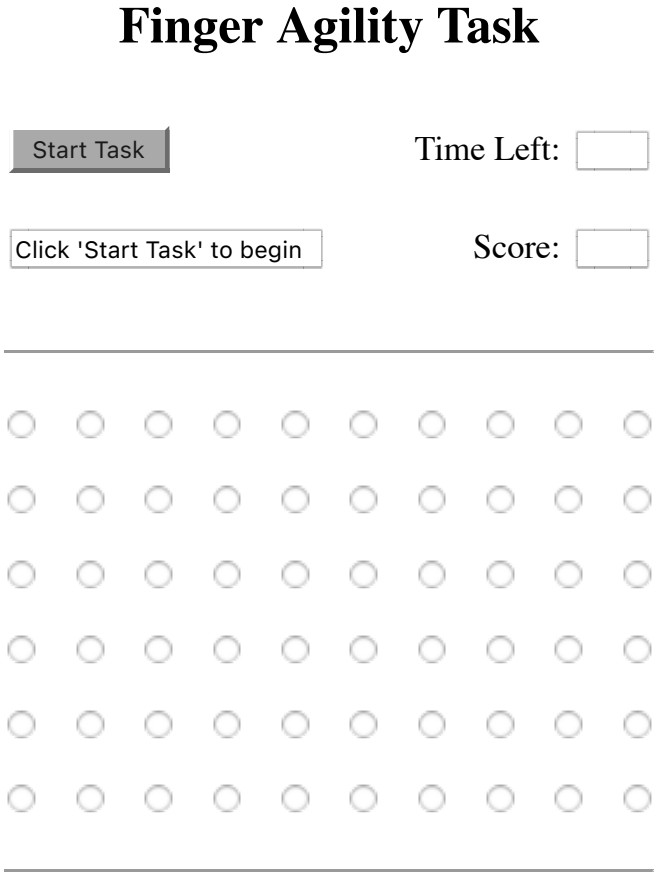

1. Click the 'Start Task' button (see screenshot of the task interface below).
2. A 30-second countdown will begin.
3. One of the circles will be shaded at any one time.
4. Click the shaded circle as quickly as possible.
5. (if you are using a device with touch screen, tap the circle instead)
6. After clicking the shaded circle, another circle will become shaded.
7. Continue clicking as many circles as you can before the time is up.
8. Every shaded circle you correctly click will get you 1 point.
9. If you click a non-shaded circle, you will lose 1 point.
10. Please try to do your best to get as many points as you can.

Screenshot of the task interface

Click the "->" button to proceed to the task.

Whenever you are ready to begin, click the 'Start Task' button.

Please indicate your score below:

Click on the "->" button to continue.

You have now completed the finger agility task.

Click on the "->" button to continue.

Finger Agility Task

Please answer the following question about the finger agility task you have just performed.

There were two versions of the finger agility task. Which of the two versions did you previously choose?

- ○ Version without pain
- ○ Version that may cause a small amount of hand pain

Click "->" for the next question

Finger Agility Task

Please answer the following question about the finger agility task you have just performed.

Please indicate the level of pain you experienced in your hand from the task.

No pain at all						Very Painful
1	2	3	4	5	6	7
○	○	○	○	○	○	○

Click on the "->" button to continue.

Outcome

Outcome of the Bonus Task

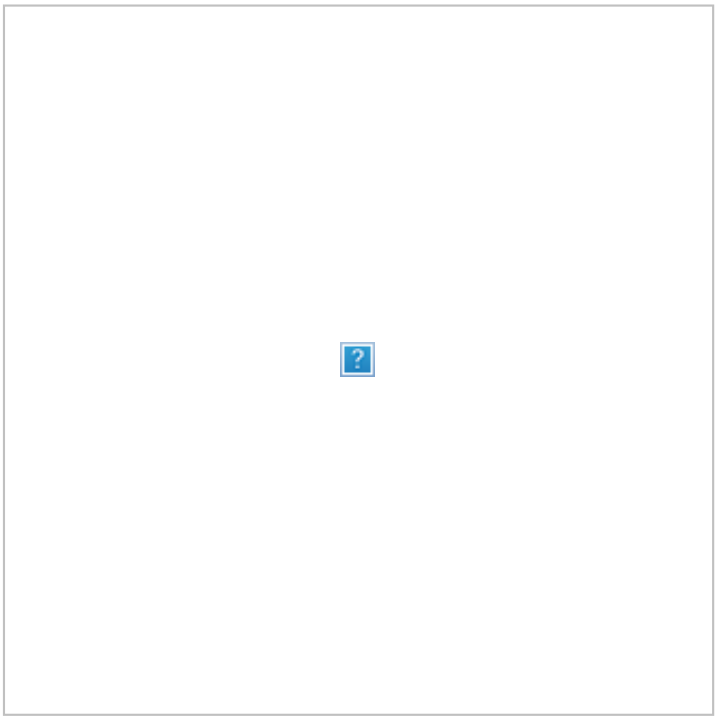

We will now tell you about the outcome of the two rounds of the Bonus Task you performed earlier.

Click "->" for the outcome of the first round.

Bonus Task Outcome: Round 1

You have chosen to open the following box(es):
Box(es) ${q://QID2/ChoiceGroup/SelectedChoicesForAnswer/2}

The bomb was located in **Box ${e://Field/Round1Bomb}**

Because the box(es) you opened did not contain the bomb, you will receive the following bonus payment for this round.

Bonus payment for Round 1: $${e://Field/Round1Pay} (${e://Field/Round1Total} boxes x $0.03 per box)

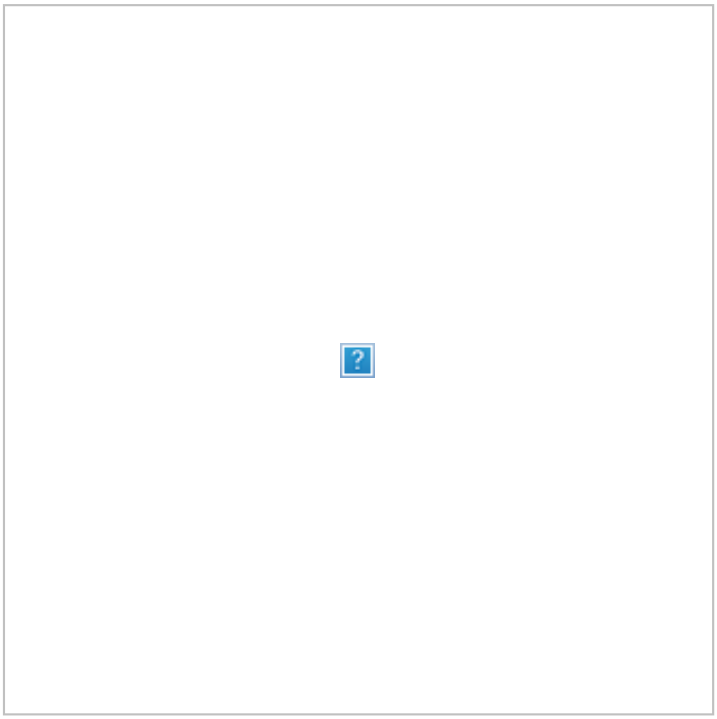

Because one of the boxes you opened contained the bomb, you will not receive any bonus payment for this round.

Click "->" to view the outcome for Round 2.

Bonus Task Outcome: Round 2

You have chosen to open the following box(es):
Box(es) ${q://QID30/ChoiceGroup/SelectedChoicesForAnswer/2}

The bomb was located in **Box ${e://Field/Round2Bomb}**

Because the box(es) you opened did not contain the bomb, you will receive the following bonus payment for this round.

Bonus payment for Round 2: $${e://Field/Round2Pay} (${e://Field/Round2Total}

boxes x $0.03 per box)

Because one of the boxes you opened contained the bomb, you will not receive any bonus payment for this round.

Click "->" to continue.

Bonus Summary

Summary of Bonus Payment

To summarize, your **total bonus payment is: $${e://Field/TotalBonus}**

- **Round 1 Payment:** $${e://Field/Round1Pay}
- **Round 2 Payment:** $${e://Field/Round2Pay}

Click "->" to continue.

BK

Questionnaire

In this last part of the study, you will be filling out questionnaires.

Please indicate the extent to which you agree with the following statements.

	Strongly disagree 1	2	3	4	Strongly agree 5
1. Karma is a force that influences the events that happen in my life	○	○	○	○	○

2. Karma is not something real	○	○	○	○	○
3. Karma is a force that influences the events that happen in other people's lives	○	○	○	○	○
4. When people are met with misfortune, they have brought it upon themselves by previous behavior in their life	○	○	○	○	○
5. When people experience good fortune, they have brought it upon themselves by previous behavior in their life	○	○	○	○	○
6. If a person does something bad, even if there are no immediate consequences, they will be punished for it in some future time in their life	○	○	○	○	○
	Strongly disagree 1	2	3	4	Strongly agree 5
7. When someone does a good deed, even if there are no immediate consequences, they will be rewarded for it in some future time in their life	○	○	○	○	○
8. In the long-run, good things happen to good people and bad things happen to bad people	○	○	○	○	○
9. When people are met with misfortune, they have brought it upon themselves by behavior in a past life	○	○	○	○	○
10. When people experience good fortune, they have brought it upon themselves by behavior in a past life	○	○	○	○	○
11. If a person does something bad, even if there are no immediate consequences, they will be punished for it in a future life	○	○	○	○	○
12. When someone does a good deed, even if there are no immediate consequences, they will be rewarded for it in a future life	○	○	○	○	○
	Strongly disagree 1	2	3	4	Strongly agree 5

13. After people die, they are reborn in a new body	○	○	○	○	○
14. There is no such thing as rebirth or reincarnation	○	○	○	○	○
15. People's moral behavior during their current life influences their rebirth in a future life	○	○	○	○	○
16. The ultimate goal of life is freedom from the cycle of birth and death	○	○	○	○	○

Demographics

Demographic Information

Please answer the following questions on demographics.

--

What is your gender?

- ○ Male
- ○ Female
- ○ Other: _____
- ○ Prefer not to answer

How old are you? (in years)

- ○ Age: _____
- ○ Prefer not to answer

Click "->" to continue.

Comments / Feedback

You have completed all the tasks required for this study.

If you have any feedback or comments about the study, you may indicate it in the box below (optional).

Please do not provide any information in this box that may identify you (e.g., name, email address).

Otherwise, click the "->" button.

Thank you for participating in this study.

The purpose of this study is to examine how people make risky decisions.

We hope that you do not discuss the details of this study with other MTurk users because prior knowledge may impact the validity of participants' responses.

If you have any further questions about this study, you may contact the researcher, How Hwee Ong (h.h.ong@tilburguniversity.edu).

Click the "->" button to receive your MTurk completion code.
